HTML, JavaScript, React, Node.js, MongoDB

PROJECTS

ShopEase 🔗

JavaScript | React | NodeJs | MongoDB

- Developed a full-stack e-commerce web application using the MERN stack, enabling users to browse products, manage carts, and place orders seamlessly.
- Implemented secure user authentication and authorization using JWT, supporting both guest and registered user workflows.

Weather App - Tapmaan 🔗

ReactJS | TypeScript | ShadCN UI | TanStack Query.

- Built Tapmaan, a modern weather forecast application using ReactJS, TypeScript, ShadCN UI, and TanStack Query.
- Implemented real-time weather and forecast data for user location and searched cities with a responsive UI.
